The Spring Biennial Election held on Monday, to all appear that the New State Constitution passed y a very slim margin. If this is true, the April 1st elechen will be the last time you will vote in the spring.

nder the new document all elective offices will or e up for popular vote in the regular fall election in

or e up for popular vote in the regular tail election in Note corber. Several offices on which voters used to deside will become appointive. The next election for state offices will be a primary election in the late summer or ariy fall of 1964.

The election of city and township officials in the election brought no decided surprises. And the vote for tate offices was about what could be expected.

The vote in Crawford County on the proposed Constitution was a distinct surprise however by most students of government and political observers. The only necessarily necessarily in the crawford County will be considered and necessarily necessarily and township officials in the election of city and township officials in the shelves was about what could be expected.

The vote in Crawford County on the proposed Constitution was a distinct surprise however by most students of government and political observers. The only necessarily necessa nference that can be drawn is that many electors were confused by the smoke screens, the charges and counter-tharges and reverted to the age old adage "if you don't know vote no".

Locally in the Grayling School District, we feel, the electors should be counted among the best citizens the survey has been completed and bert Trudeau and Mrs. Ernest that work on the back ground and development of the country will be the survey of Crawford Country will be published in a volume containing the history, governmental organization and records system of the country will be published in a volume containing the history, governmental organization and records system of the country will be published in a volume containing the history, governmental organization and records system of the country will be published in a volume containing the history, governmental organization and records system of the country will be published in a volume containing the history, governmental organization and records system of the country will be published in a volume containing the history, governmental organization and records system of the country will be published in a volume containing the history, governmental organization and records system of the country will be published in a volume containing the history, governmental organization and records system of the country will be published in a volume containing the history, governmental organization and records system of the country will be published in a volume containing the history, governmental organization and records are the country will be published in a volume containing the history.

the electors should be counted among the best citizens the county. All historical research parents and grandparents.

organization and records system of the county. All historical research parents and grandparents.

Mr. and Mrs. John L. Selesky of any community. In the 18 years we have been residents, the school has never asked for anything from the voters which it did not get. On extra operating millage, the school has never asked for anything from the voters which it did not get. On extra operating millage, the legal research will be deand two building programs, the voters said, "yes". It is very apparent that the people of the district want the best education for the youth of the area that is possible. The taxpayers have shouldered a heavy burden. Now ford County unit of the Michigan Golden Gloves.

Mr. and Mrs. Fred Lamm and it is up to the parents of the school-age child to encourage him to learn. It is up to the administration and the faculty of the Grayling schools to make the best possible use of these new facilities which the taxpayers are making available for the field of education in this area. It is time for the citizens of the smaller school districts of the survey in Crawford County.

The Grayling High school base-ball team which had planned to work out at the ball park last week over the weekend. Miss page is a Couzens Fund nurse of the survey under the description of the survey in Crawford County.

The Grayling High school base-ball team which had planned to work out at the ball park last week in that district. of our county to do some soul searching. Can they give were unable to do so as the result their children the type of education which is so badly of the cold weather.

Mrs. Harold Cliff spent Monday Holly are visiting needed in our world of today? Isn't the price of having the cold weather. needed in our world of today? Isn't the price of having and Tuesday in Detroit attending Nellist home this week. Mr. Nellist "our own school" too high to pay if the children do not a summer style show.

Obtain all of the advantages that are available for them

Bob Hanson was home from Descending Nellist home this week. Mr. Nellist spent the weekend here returning Sunday.

With Hard More advantages was a spent to be supported by the style of th obtain all of the advantages that are available for them Bob Hanson was nome from Dein a larger and better equipped school?

The defeat of the proposed Constitution in the county is a bitter pill to swallow but the vote of the electors of the Grayling School District made it seem later a several weeks stay in Gray-live were guests of Mr. and Mrs. Waiter Handard Mrs. Horace Shaw for a few days. Mrs. Harry Reynolds returned to to her home in Midland Thursday and husband Wednesday on their after a several weeks stay in Gray-live were guests of Mr. and Mrs. Waiter Handard Mrs. Horace Shaw for a few days. Mrs. Harry Reynolds returned to to her home in Midland Thursday and husband Wednesday on their return to spend a few days in Bay of the defeat of the proposed Constitution in the son.

Russian Communism is 45 years old. Despite the Red record of double dealing and murder in less than half a century, some of our more fuzz-minded citizens still be-lieve Russia wants peace. It is this single belief that is the Kremlin's most powerful ally is the fight to turn the world

What our long hair idealists One our ong nair lugarsts and pence could be har all of us to the Communist camp. It must be not one of soft-head-camp. There is no pacifists. Fig. 11 on One le Red bor-chine wever, from a agents concentrate en la Briating and communi ous, and peaks movements, as in sainfaline the hor-of nuclear war, then offer

in'm as an insurance for'everlasting peace. ion insurance Many of our best citizens who are not pacifists but sober realists believe half truths truths on Russia that the Kremlin has no intention of correcting It is true that Russian agriculture can barely feed the population. It is true that we produce more steel, more crude oil, more electric power, more cement. However, if we more cement, nowever, in we helieve that these factors bother the Kremlin or the Communist drive, we are badly mistaken. Their main interest is world power, centralized in the Kremlin, and they are dedicated to this.

Abundance is always coming Abundance is always coming o the masses in Russia, some If there is criticism about lack of material things, the Kremlin always can point with pride to the record of the Red Cosmonauts. Which would you rather have — a coffee maker or the world record for

orbits around the earth? cople in this country tend

This organization to kid about Russian spies and belittle Red espionage. Just recently, we caught two Soviet spies operating within the United Nations. In retaliation. Russians expelled Com-nder Raymond D. Smith,

our assistant attache in There was a great hue and strength? cry about Commander Smith in Russia. He was merely doing his job, collecting facts about Russia he couldn't help noticing. The Russians we caught were busily buying defense secrets from an Amer

ican sailor. Perhaps we ought to take

to 19 Znamensky Street in Moscow. This is an old Russian palace housing Soviet spy headquarters. Behind its barred windows and doors, there is a complete Soviet spy apparatus responsible for the apparatus responsible for the collection of information from every nation in the world. The American section takes up almost 50% of the Red spy system. Here is where the Red spies we caught in the United Nations first got their instructions.

Chief among the Red spy networks is the Kremlin's own — the Confidential Ad-ministration of the Communist Party's Central Committee.

County

This organization seess to cir-cles of decision -- The White House and State Department. The information they vant: What will we do, what are we capable of doing, in any given situation? Have we the will and courage to use our will and courage to use our

It may come as a surprise to you to learn that this Russian spy bureau still operates as it did in the days of Whittaker Chambers and Alger Hiss. There has been little, if any change.

In addition, the Soviet Ministry of Foreign Affairs, the Ministry of Foreign Trade, and the Cominform, all have competitive spy systems. The Soviet general staff's military intelligence also subverts sympather. Americans, when the opportunity arises, All operate

opportunity arises, Al operate under iron discipline."

Patience is the secret belief. Soviet estionage, Russian instructors think nothing of recruiting a spy and letting him do nothing for eight to ten years. Mear while, the Red annuarities is gainer him is not annuarities is gainer him is not annuarities in sealor him is not annuarities is gainer him is not annuarities. apparatus is easing him into a sensitive area of our govern ment. The time comes when the new spy is ready to take over, and he goes to work for the Kremlin. Next time one of

friends poo-poos Russia's threat to our freedom, tell him about 19 Znamensky Street. Tell him that the energy is not only ferocious and powerful, but also invisible and dedicated. He may tell you that we have comparatively few members of the Commu-nist Party in the U.S. This is true — but Communist espionage here is enormous, expertly organized, and working against us every minute of every day.

## PERFORMANCE:

MOUTT KNOM MHA FORD SWEPT THE FIRST

## FIVE PLACES AT DAYTONA...WHEN YOUR '63 FORD IS STILL GOING STRONG YEAR AFTER YEAR

Daytona's big, banked oval puts unbelievable stresses and strains on engines, steering gears and frames. The Fords that won at Daytona took all the punishment this famous track could dish out over 500 miles of grueling competition with out missing a beat.

In this toughest of all stock car events, mechanical failures claimed over fifty per cent of the starting field. But of twelve Fords entered, nine went the distance. Ford took six of the first ten places.

Five-hundred-mile events like Daytona are a public demonstration of toughness, reliability and sheer engineering excellence that are part of the new generation of Fords. A test like this can't be duplicated on anybody's testing grounds—it's run right out in the open. Any car can enter. But only the car that has the best total combination of strength, balance, precision

control and road-clinging suspension can win . . . that's what we mean by total performance.

Visit your Ford Dealer before you buy any other new car. Here's what you'll find: a new kind of total-car durability, a new kind of handling ability, a suspension that is startlingly smooth yet sticks to the road like tar. If you haven't driven one lateiv, you can't really know what a new Ford is like. Remember, if it's built by Ford, it's built for performance...total performance
